Kinley Dorji, in his capacity as Forestry Officer in the Ministry of Agriculture of Bhutan, manages planning and development of watersheds, develops technical guidelines for water and soil conservation, trains field officers in soil and water management and implements watershed and land management activities. He also works towards community mobilization and developing training modules for community forestry and agro-forestry.

He has a bachelor's degree in Forestry from West Bengal, India and a post-graduate diploma in Participatory Forestry Management from Kasetsart University, Thailand.

In his career of twenty-two years, he has worked under different Divisions/ Sections of the Department in various capacities such as Range Forest Officer, Instructor and Park Ranger. He has participated in various international training programmes and study tours on different aspects of forestry. His professional interests are participatory rural development, bioengineering, soil and water conservation and community/private forestry planning and implementation.
