Pa Ousman Jarju, in the capacity of the Director of the Department of Water Resources in Gambia, works towards water policy development, water resources development and management and water quality monitoring. He is the Chief Technical Adviser to the government on all matters pertaining to the management and utilization of the nation's water resources. He ensures that the terms of reference and mission of the Department of Water Resources are carried out effectively and efficiently.

He has a bachelor's degree in chemical engineering. He has completed various diploma and certificate courses in environmental science and technology, environmental impact assessment, water quality monitoring and analysis and pesticide quality control.

During his career of sixteen years, he has worked in various positions of Senior Scientific Officer and Analytical Chemist in the areas of water quality control and preparation of guidelines. He has various publications to his credit.
